## MISSION STATEMENT OF THE HOWARD COUNTY HEALTH DEPARTMENT

To Promote, Preserve and Protect the Health of All in Howard County.

### Complaints

The Howard County Health Department/Bureau of Behavioral Health/Local Behavioral Health Authority is interested in hearing any concerns you may have regarding services you receive from the public behavioral health system. Please call 410-313-6202 to initiate a complaint. If you are receiving services from someone who is reimbursed by your private health insurance coverage, you should contact your Human Resource Department at your place of employment to request information regarding how to file a complaint or request a review/appeal when you are denied services directly from your insurance provider. You can also contact the Maryland Insurance Administration at 1-800-492-6116, if you cannot resolve your issue directly with your employer or insurance provider.

### Network of Care

Network of Care websites:

## CRISIS SERVICES

---

### **Mobile Crisis Team:**

**410-531-6677**

The Howard County Mobile Crisis Team (MCT) is available free of charge to any individual present in Howard County at the time of a mental health crisis. MCT is a partnership with the Howard County Health Department, Howard County Police Department, Humanim, and Grassroots. During hours of operation, MCT staff are able to respond to psychiatric crisis identified by the Police. Two mental health professionals go to where the individual is located and explore suitable support to de-escalate the crisis and help the person in trouble. If there is an issue of safety, the team is able to gain police assistance to have the person transported to the emergency room at Howard County General Hospital for a thorough psychiatric evaluation. The Mobile Crisis Team is available by calling 410-531-6677 or by calling the police at 911 and requesting the Mobile Crisis Team. MCT will refer the individual and family members to available community resources and follow-up to assure linkage.

### **Sheppard Pratt Health System**

**6501 N. Charles Street**

**Towson, MD 21204**

**410-938-5302**

Crisis Walk-in Clinic will evaluate individuals of all ages in need of crisis assessment and triage. This service is designed for individuals who require direct admissions to inpatient and day hospital levels of care and who might otherwise be referred to an Emergency Department or who require current psychiatric evaluation.

### **Crisis Beds**

Crisis beds provide 24/7 intensive mental health treatment and support services that are designed to provide clinical support to an individual in a psychiatric crisis. Crisis beds can be used as an alternative to inpatient hospitalization, when appropriate, or as a step-down from an in-patient psychiatric unit when the individual needs continued clinical support post-discharge. An individual is eligible for a Crisis Bed if he or she:

- a) is over 18 years of age,
- b) diagnosed with a serious mental illness,
- c) due to acute symptomatology related to the individual's psychiatric condition, has impaired ability to function within the individual's community living situation and is in need of a crisis bed to avoid inpatient psychiatric admission or to shorten the length of inpatient stay,

- d) for clinical reasons, if it is felt that the individual needs a temporary separation from the current living situation,
- e) has agreed to be referred to a crisis bed,
- f) expects, with staff support, to be able to comply with treatment recommendations, and
- g) is able, with staff support, to care for physical needs and basic personal hygiene.

To access Crisis Beds, please call (410) 418-4048, fax # (410) 418-4019.

### **Psychiatric Evaluation**

Family members or other concerned adults such as a therapist or the police may initiate an Emergency Evaluation process that will allow the police to transport an individual to the local hospital emergency room for a psychiatric evaluation. This emergency evaluation process is usually referred to as an "emergency petition" (EP). Also, any of the following mental health professionals can complete an Emergency Evaluation form that will allow the police to transport an individual to the local emergency room for a psychiatric evaluation: physician (MD), psychologist (Ph.D.), licensed clinical social worker (LCSW-C) or licensed clinical professional counselor (LCPC). If a family member or concerned adult is initiating the emergency evaluation process they would go to the Clerk's Office at the District Courthouse (410-480-7700) located at 3451 Court House Drive in Ellicott City Maryland to file an emergency evaluation/petition between the hours of 8:30 a.m. to 4:30 p.m. Monday through Friday. After 4:30 p.m. you would go to the Court Commissioner's Office to file an emergency evaluation petition. Information must be provided to a Judge or Commissioner regarding why this individual is a danger to themselves or others and therefore needs to be evaluated for a psychiatric hospitalization. If the Judge/Commissioner agrees that the individual being "petitioned" needs a

psychiatric evaluation, the police will be ordered to transport the individual to the nearest hospital emergency room for a psychiatric evaluation.

**The Mobile Crisis Team (MCT) is available daily and can pursue an emergency evaluation if needed. Call 410-531-6677.**

A psychiatric evaluation determines whether hospitalization is needed or whether a less restrictive level of care may be more appropriate. Admissions to psychiatric facilities (private or community hospitals) can be either voluntary or involuntary. If an evaluation is completed and inpatient treatment is recommended, the patient will be asked to sign a voluntary admission agreement. In the case of a minor, a parent/legal guardian signs the voluntary admissions agreement. In Maryland, a person 16 years old or older may sign himself into a psychiatric hospital. However, the parent of a minor child can authorize in-patient treatment even over the objections of the adolescent who is 16-18 years old.

If the patient refuses to be hospitalized voluntarily, he or she may be admitted

involuntarily on certificates signed by two physicians, or one physician and one licensed psychologist. The certificates attest to the need for hospitalization based on the following:

- the individual is suffering from a mental disorder
- the individual is in need of inpatient care
- the individual is in danger to self or others

Howard County General Hospital has an Emergency Room for psychiatric emergencies that is separate from the regular Emergency Room. This behavioral health Emergency Room is for individuals 18 and older. Individuals under 18 would use the Pediatric Emergency Room.

When a patient is admitted involuntarily to a hospital, a hearing must occur before an administrative law judge within 10 days to determine if the individual can continue to be involuntarily confined to an in-patient psychiatric facility against his wishes.

## RESIDENTIAL REHABILITATION PROGRAMS (RRPS)

---

Residential Rehabilitation Programs (RRPs) are licensed under COMAR 10.21.22. Residential beds are targeted to those individuals served by the public behavioral health system who are diagnosed with a serious mental illness and need assistance /support services to live in the community. Priority for placement in RRP is given to individuals returning to the community from State in-patient hospitalizations and individuals who are diagnosed with a mental illness and are homeless. All referrals for residential placement are screened by the Howard County Health Department/Bureau of Behavioral Health/LBHA to assure that the referral meets the criteria for placement. **Individual RRP providers can not authorize residential placements.** Please contact 410-313-6202 for a referral packet.

The Howard County Health Department has a Transition-Age Youth (TAY) Initiative that serves young adults between the ages of 18-25 who need residential services. This program is to assist young adults in becoming self-sufficient through educational/vocational services as well as other mental health support services. Priority for placement into the Transition-Age Youth (TAY) program is given to individuals age 18 who are aging out of in-patient settings such as Residential Treatment Centers (RTCs) and individuals who have utilized multiple treatment services in the public behavioral health system prior to age 18.

The Supported Living Program at Humanim assists individuals with mental illness in maintaining independent living within the community. The program provides a continuum of services to meet the unique needs of the individual. Services and activities are designed to assist individuals in improving self-sufficiency, increasing choice, gaining control of their lives and increasing participation in the community. The optimal use of natural supports; whereby each person builds their own network of supports are integral components of the Supported Living

Program. Individuals will identify their community support network (family, friends, church members, self-help group members). Case Coordinators will collaborate with the person's network of supports in planning and goal setting. Supported Living services are provided in the individual's home and at various locations throughout the community based upon the needs of the individual served.

## HOUSING

---

The Department of Housing and Community Development provides affordable housing opportunities for low- and moderate-income residents of Howard County. The Housing Commission is a separate legal entity which serves as the Public Housing Authority for the purpose of developing and managing housing resources for low- and moderate-income residents of Howard County.

**The Housing Choice Voucher Program (formerly known as “Section 8”)**, provides assistance for very low-income households (single or family), the elderly, and the disabled to afford decent, safe, and sanitary housing in the private market. Participants who receive vouchers search for their own housing, which may include single-family homes, townhouses, and apartments, or even the family's present residence. The housing subsidy is paid to the participating landlord directly by the Howard County Housing on behalf of the resident. This payment is paid with the caveat that the housing unit meets the requirements of the program.

**The Public Housing Program** is funded and regulated by the United States Department of Housing and Urban Development (HUD), created to assist lower income families live in affordable, decent and safe housing. The housing agency owns the units rented to approved families. The participating families are required to pay 30% of their adjusted gross income toward rent and utilities.

**Rental Assistance Program** is funded and regulated by the Maryland Department of Housing and Community Development, providing grants to local governments to assist low income families who either are homeless or have an emergency housing need with flat rent subsidies. The ultimate goal is to help families transition from homelessness or temporary emergency housing to permanent housing. Participating families find their own housing for rent, boarding house rooms, other single room occupancy

arrangements, apartments, group homes, transitional housing (provided it is not temporary emergency housing), single family houses, and mobile homes.

**Affordable Housing:** The Rental Housing Program leases affordable, decent and safe units, of varying size and type, to low-to-moderate income County residents. The family's monthly rent payment varies and is based on factors such as gross income, unit size and the affordable rent structure associated with the unit.

An application is maintained until it reaches the top of the waiting list. At such time, an eligibility determination will begin, and an interview will be scheduled to complete the eligibility determination. The amount of time that an applicant remains on the waiting list varies and is dependent on several factors. While on the waiting list, Howard County Housing (HCH) may send letters from time to time requesting information to update existing application files or asking if applicants are still interested in housing assistance. Applicants that do not respond will be removed from the waiting list.

The Early Childhood Mental Health program can help child care providers and early childhood educators with children ages 0-5 years of age that have difficult and disruptive behavior. CARE Center behavior specialists work on site and provide observations and consultations with families and educators to provide intervention and support to decrease challenging behaviors such as:

- Anxiety
- Aggression/biting
- Trouble following directions
- Hard to soothe
- Difficulty forming relationships/developing friendships

Behavior specialists work on these issues with the goal of keeping children in care, giving them a better chance to enter school ready to learn. The CARE Center can answer questions about school readiness and success in school, positive youth development, community services, concerns about your child's emotional or mental health, difficult or inappropriate

behaviors, child care programs and preschools, developmental delays, including speech, physical disabilities or hearing, local recreation and sports programs, classes for parents on child development, positive discipline and parenting skills, financial assistance, support groups for parents and children, intensive needs services and respite care, drug or alcohol use or abuse.

information or a referral packet.

### Maryland Early Intervention Program (EIP)

The Early Intervention Program is being established at the University of Maryland, School of Medicine (UMSOM) to provide early identification, evaluation, and comprehensive psychiatric treatment to adolescents and young adults with psychotic disorders. Recent advances in mental illness science support a paradigm shift from the treatment of individuals with an already established illness to early detection and intervention of people who are at high risk for the development of a psychotic illness or are in the initial stages of such an illness. The goal of this new approach is to alter the course of illness, reduce disability, and maximize the likelihood of recovery. More information about EIP can be found at [marylandeip.com](http://marylandeip.com).

## CASE MANAGEMENT/CARE COORDINATION

---

The goal of case management/care coordination is to help youth and families remain together with substantial community-based services to meet their ongoing needs. Mental Health Case Management services assist individuals by linking them to rehabilitation and treatment services, entitlements/benefits for which they may be eligible, housing, social supports, vocational and educational services. Medicare and private insurances do not pay for case management services. Individuals who are eligible for case management services cannot be receiving case management services from another agency and must be willing to voluntarily agree to participate in case management

services. The child and adolescent care coordination/case management provider is Center for Children, Inc.
